

# LEARNER CASE STUDY

[www.nrtraining.co.uk](http://www.nrtraining.co.uk)

## LEARNER FEEDBACK

I just wanted to say a huge thank you for putting my name forward to work in the gardens on a private estate. I'm into my third month here and absolutely loving it. From day 1, putting all the knowledge from the Practical Horticulture course into practice while everything is fresh in my brain.

It's been a rapid year. Starting the course in November 2022, leaving my job in June 2023 and now a 4 day role at an extensive private estate is incredible. I feel super privileged to in this position.

Thanks for your inspiration and time and I hope to see you and the team again soon.

## COURSE CONTENT

Course Content:

- Plant Identification
- Plant Propagation
- Plant Maintenance, Pruning and Planting
- An Introduction to Soil and Plant Science
- Wildlife Gardening
- Individual Horticultural Project
- Productive Growing Part 1

This is a non-accredited course delivered to a Level 2 standard.

## CERTIFICATE IN PRACTICAL HORTICULTURE

This part time course is suitable for the keen amateur; those wishing to strengthen their horticultural knowledge or seeking to enter the horticultural industry.

## RICHARD BAKER

Certificate in Horticulture

2022 - 2023

Richard was looking at retraining as a gardener and felt this course would be perfect. He was working full time in the hospitality industry but had developed a real passion for plants and for growing and was looking to change career.
